How to use this chart

- Recruiting recommendations, not measured popularity rankings. Based on SOW pages 5–7; Reduced Fare Clerk excluded. Repeated titles at different grades are combined.
- Indeed Smart Sourcing, LinkedIn Recruiter and Dice recruiting products can support candidate/profile search, subject to subscription and access terms. A profile is not always a downloadable resume.
- Specialist boards, associations, PA CareerLink and networks are supplemental posting/referral channels. Do not assume they offer a searchable resume database; verify employer access and staffing-agency eligibility before paying.
- Behance is a portfolio-discovery source, not a conventional resume database. Ask candidates for a current resume and permission to submit it.
- Confirm qualifications, pay acceptance, temporary-assignment interest, commute, availability and consent before submission. SEPTA requires suitable resumes within seven calendar days of notification.
- Job titles are illustrative; source against the actual requisition. PA I Call Administrator is reproduced from the SOW; confirm its duties before targeting utility / damage-prevention networks.
